Platinum Health provides R17 million relief to members

For the second consecutive years, (2021 and 2022 respectively) the Platinum Health Board of Trustees (BOT) has provided relief to its members by introducing the contribution increase holiday.

What does this mean for you as a member?

- For the months of January and February 2022 members will pay the same contributions as for 2021.
- With effect from 1 March 2022, members will start paying 2022 contributions The effective Platinum Health increase in contributions will be 5.80%.

The BOT made this decision because Platinum Health understands the strain and economic hardship its members have experienced over the past two years, which has been mainly brought about by the COVID-19 pandemic.

Throughout this challenging time, PH has been with its members every step of the way and it will continue to do so by providing appropriate healthcare when you or your loved ones need it most.

Every member is important to us, and we will continue our mission to provide appropriate healthcare of high quality, cost efficiently, to the satisfaction of stakeholders.
