

INTERNATIONAL NURSES DAY

12 MAY 2021

PLATINUM
HEALTH

Platinum Health wish to express its sincere gratitude for the dedication, commitment and perseverance that Platinum Health Nurses have displayed over the past year.

The COVID-19 pandemic has greatly impacted the lives of our nurses and the health systems they serve, and although daily life may have changed, the core character of our nurse has not.

Now more than ever, health, economies and societies are hugely dependent on the nurses who, together with other healthcare professionals, are on the frontline battling COVID-19 whilst continuing to ensure access to high quality and affordable healthcare.

As healthcare professionals continue to risk their lives in order to save ours, we honour their significant contribution as frontline warriors.

Their services are commendable, and we cannot thank them enough.
