

# Primary Health Care Nurses at your service

**We want to encourage our members to utilise the services of Platinum Health (PH) Primary Health Care Nurses available at Platinum Health facilities.**

Our Primary Health Care Nurses are fully trained in clinical nursing (to examine a patient), to make a diagnosis, to prescribe treatment and care for the patient.

They are able to manage most of the general ailments' patients are presenting with and will refer the patient to a doctor when the diagnosis and treatment is not within their scope of practice.

By offering this service, Platinum Health gives you as Platinum Health member, access to appropriate, efficient and quality service.

**If you choose to access medical service through a Primary Healthcare Nurse:**

- **You do not pay any levies.**
- **You do not need to make an appointment.**
